

CHALAPATHI COLLEGE OF PHARMACY

(Affiliated to Acharya Nagarjuna University|Approved by PCI|
Recognized by Dept. Of Technical Education, Govt. Of A.P)

INNOVATIVE TEACHING METHODS

Name: Mrs.K.Nalini

Designation: Assistant Professor

- ✓ Begin each class by presenting the key points and learning objectives to help students understand the focus of the session.
- ✓ Observe and assess each student's strengths and weaknesses. Reinforce their strengths through appreciation and provide constructive feedback and strategies for improvement.
- ✓ Employ both artificial and live models to enhance conceptual clarity and practical understanding of complex topics.
- ✓ Motivate every student to express their ideas and engage in discussions, fostering confidence and communication skills.
- ✓ Inspire students through real-life examples and applications that connect classroom learning to everyday experiences.
- ✓ Utilize PowerPoint presentations, educational videos, flow charts, and other multimedia tools for better comprehension and engagement.
- ✓ Encourage students to carry out small-scale research (e.g., studying the effect of natural preservatives on microbial growth).
- ✓ Allow students to teach subtopics such as sterilization methods or microbial genetics to their peers. Conduct debates on antibiotic misuse or vaccine hesitancy to enhance understanding and critical thinking.
